

All Kinds of Turned Around Words

Challenge

GOAL: To make a connected square using your spelling word.

1. Count the number of letters in your word. Count down that many lines on your paper to give yourself room. Write your spelling word as you normally would across the line on your paper.
2. Starting at the first letter of your word (that you've already written), go up one line on your paper. Write the second letter of your word. Go up another line and write the third letter of your word. Keep doing this until you have spelled your word completely.
3. Starting with the last letter you wrote for #2 (which should be the last letter in your word), write your spelling word across the line backwards.
4. Now it's time to connect it all! Starting with the last letter you wrote for #3 (which should be the first letter in your word), write your spelling word down until you connect the very last letter to the last letter you wrote in #1.

1.	2. k	3. k l a w	4. k l a w
	l	l	l a
	a	a	a l
w a l k	w a l k	w a l k	w a l k
